CLAIM SCENARIO

PATIENT NOTIFICATION AND CREDIT MONITORING COSTS

A computer is stolen from a reception desk area containing the medical records of approximately 6,000 patients. Since the insured has MedPro's cyber and privacy liability coverage, breach services are hired to determine the appropriate course of action. It is determined a forensic firm is needed to define the scope of the data loss. The insurance covers the expenses associated with notifying all impacted patients, as well as reporting the event to Health and Human Services and four state officials.

NOTIFICATION COSTS: \$10,000

DEFENSE COSTS: \$8,000

FORENSIC COSTS: \$7,000

TOTAL: \$25,000

RESULT: MedPro's cyber and privacy liability insurance would have covered the entire \$25,000 loss.

CLAIM SCENARIO

DATA RECOVERY COSTS

A ransomware virus infects the insured's computer, deleting all data. Having MedPro's cyber and privacy liability coverage puts them in contact with breach services who assist them with hiring an IT firm to restore the affected data.

IT COSTS: \$7,000

TOTAL: \$7,000

RESULT: MedPro's cyber and privacy liability insurance would have covered the entire \$7,000 loss.

CLAIM SCENARIO

NETWORK SECURITY AND PRIVACY

A nurse looks up a medical record on a friend without consent and unbeknownst to the nurse's doctor/employer. The friend sues the doctor for a breach of privacy rights. Since the insured has MedPro's cyber and privacy liability insurance, an attorney is hired to defend the doctor.

TOTAL: \$50,000

RESULT: MedPro's cyber and privacy liability insurance would have paid up to \$50,000 for the defense and covered loss.

CLAIM SCENARIO

PATIENT NOTIFICATION AND CREDIT MONITORING COSTS

An insured inadvertently leaves a public portal open, resulting in the private data of 10,000 patients being exposed. MedPro's cyber and privacy liability coverage puts them in contact with breach services who assist them with hiring a forensic firm to confirm what was viewed, if any data was copied and whether the site is now secure. Breach services also help hire a law firm to notify state and federal regulators and coordinate a public response. A notification is sent to all affected patients and published in regional media and on the insured's website. A call center is established to answer questions from the affected population, and identity monitoring is offered to all affected patients.

NOTIFICATION COSTS: \$12,000

DEFENSE COSTS: \$7,500

FORENSIC COSTS: \$4,000

MONITORING COSTS: \$50,000

TOTAL: \$73,500

RESULT: MedPro's cyber and privacy liability insurance would have covered \$50,000 of the loss.
