Introduction

For years MedPro Group (MedPro) has been the expert on risk management and patient safety issues. Our strong tradition of risk management continues today with comprehensive resources and solutions that are designed to help insureds improve patient safety and reduce liability exposures.

MedPro insureds have access to a wealth of risk-related information and expertise, including core risk and specialty-specific publications, tools, and educational offerings — as well as a seasoned team of consultants who average more than 25 years in the industry. Additionally, MedPro is pleased to offer a variety of general and targeted risk management continuing education courses through our webinar program and preferred vendors. Insureds who successfully complete risk education might be eligible for a risk management premium credit at their next policy renewal.¹

We believe that a strong risk management program is capable of reducing patient harm and protecting healthcare providers from liability. Through our services, we strive to increase awareness of enduring and emerging risks, improve patient safety, assist in prioritizing key issues for action, and work with insureds to demonstrate measurable improvement.

Purpose

The purpose of this document is to provide an at-a-glance reference of some of the publications, materials, and continuing education opportunities that MedPro's Risk Solutions group has available. Items listed in this catalog are linked to MedPro's website. The majority of materials are available on our public webpages (no login required); others can be obtained by logging on at www.medpro.com or through a request to the Risk Solutions group.

¹ Premium credit eligibility and amount are subject to business and regulatory approvals and may vary by policy type. Completion of a risk management course does not imply or guarantee renewal.

Claims Data Analyses

Claims data analyses are designed to provide insureds with detailed malpractice claims data to assist them in purposefully focusing their risk management and patient safety efforts. All data represent a snapshot of MedPro’s experience with malpractice claims, including an analysis of the risk factors that drive these claims. Risk Solutions offers [claims data by specialty](#) and [claims data by topic](#).

Continuing Education

Courses

MedPro insureds have access to a robust catalog of general and targeted risk management continuing education courses, which are offered through MedPro’s preferred vendor, The Sullivan Group (TSG).

TSG offers compelling general and specialty-specific risk management programs. They have created an array of online educational courses dedicated to patient safety, medical error reduction, and high-quality medical care. TSG’s courses address a broad spectrum of risk, safety, and quality issues in clinical care. For more information about TSG’s online courses, visit www.thesullivangroup.com/medpro/.

Risk Solutions On-Demand Programs

Risk Solutions offers a variety of on-demand educational programs on a range of risk management topics. Programs are geared toward both office- and hospital-based providers.
